

Assistant Professor, Tenure Track | Speech-Language Pathology

The School of Audiology and Speech Sciences at the University of British Columbia invites applications for a full-time faculty position at the rank of Assistant Professor, tenure track in speech-language pathology (SLP). Preference will be given to applicants with research and/or teaching expertise in phonological and phonetic development and disorders (assessment and intervention); however, candidates with specialization in other areas of developmental communication disorders are encouraged to apply. Duties include research, supervision of student research, and course-based instruction in SLP including phonological development and disorders. The successful candidate will also be expected to make academic service contributions.

The position requires a Ph.D. or equivalent, as well as a Master's level professional qualification in SLP. The successful candidate will demonstrate a record of research productivity and teaching commensurate with experience. The successful candidate will possess a strong potential for establishing a successful research program, and developing excellent teaching skills. Excellent communication skills are also essential.

Salary will be commensurate with qualifications and experience and subject to final budgetary approval. The anticipated start date is July 1, 2018, or upon a date to be mutually agreed.

School of Audiology and Speech Sciences

The following items must be included when applying to this position: A letter of application, a detailed curriculum vitae, a statement of teaching interests, philosophy and effectiveness, a summary of research interests, reprints of representative publications that demonstrate significant contribution to the field (maximum of 4 reprints) along with three (3) confidential letters of reference addressing scholarly, professional and creative work, teaching and administration. At least one letter should not be from a co-author or research supervisor.

Please apply through e-recruit at:

<http://www.hr.ubc.ca/careers-postings/faculty.php>

Referees can send their letters of reference by email to director@audiospeech.ubc.ca, or by mail to:

Dr. Jeff Small, Director
School of Audiology and Speech Sciences
University of British Columbia
Friedman Building
463 - 2177 Wesbrook Mall
Vancouver, B.C. V6T 1Z3 Canada
Fax: (604) 822-6569

Review of the applications will begin on November 15, 2017 and continue until the position is filled.

The School (www.audiospeech.ubc.ca) is located in recently renovated premises and state-of-the-art teaching facilities. The School offers intensive two-to-three-year audiology or speech-language pathology graduate (M.Sc. degree) programs consisting of coursework, research and supervised community based clinical practice. It also offers doctoral and postdoctoral education and numerous opportunities for interdisciplinary research and teaching collaborations.

Faculty members, students, staff and alumni in the UBC Faculty of Medicine are actively engaged in innovative, leading edge research, education and community service on university and hospital campuses across the Province. Together we aim to create knowledge and advance learning that will make a vital contribution to the health of individuals and communities, locally, nationally, and internationally.

The University of British Columbia (UBC) is an international centre for research and teaching. UBC embraces bold new ways of thinking that attract exceptional students and faculty. It is a place where innovative ideas are nurtured in a globally connected research community, providing unparalleled opportunities to learn, discover and contribute. The campus, surrounded by mountains, forest and bordering the ocean, is also close to Vancouver's downtown area, which offers a variety of retail, arts, and entertainment activities.

UBC hires on the basis of merit and is committed to employment equity. All qualified persons are encouraged to apply. UBC is strongly committed to diversity within its community and especially welcomes applications from visible minority group members, women, Aboriginal persons, persons with disabilities, persons of any sexual orientation or gender identity, and others who may contribute to the further diversification of ideas. However, Canadian and permanent residents of Canada will be given priority.
